Civil Engineer

Education:

BS Civil Engineering – P.E License preferred.

Experience:

- Five (5) years minimum preferred.
- Land Development
 - Land planning
 - Grading plans
 - Storm Water Management
 - Road design
 - Site permitting, including
 - Storm water management
 - NPDES permitting for earth disturbance
 - Ingress/Egress
 - Planning & Zoning Requirements
 - On-lot sewage disposal
- Municipal Experience
 - Potable Water Filtration & Distribution
 - Sanitary Sewer Treatment & Collection
- Other
 - Land Surveying experience – PLS preferred, not required.
 - Development of Technical Specifications
 - Preparation of public bid documents
 - Communication Skills – written and verbal
- Professional
 - Maintain appropriate professional decorum with clientele.
 - Maintain appropriate professional decorum with peer group and office administrative team.

Employee will be part of a multi-faceted team engaged in a variety of civil municipal projects and land development projects. The civil municipal practice requires experience with preparation of bid documents and specifications as required for publicly bid projects. This position requires excellent communication skills, written and verbal. This employee will engage directly with clients individually and as part of project team. Auto CAD skills are important, as are IT skills commensurate with current engineering practice.

Salary is commensurate with experience. Somerset Engineering offers a comprehensive benefits plan including vacation time, holidays, health insurance plan, and participation in the company's 401K plan.
